

Drift Masters Round 3 Power Park Huvivaltio Alahärmä, Finland

DIFIC

OUALIFYING

COLUMN TWO

6

- ALLE

SCORING SYSTEM

- JUDGE 1: Line 60 points
- JUDGE 2: Line 60 points + Commitment 5
- JUDGE 3: Angle 20 + Fluidity 10 + Initiation 5 points

SCORING SYSTEM

- Both line judges evaluate the entire track; the final result is the average of their two scores.
- The scores for Commitment, Angle, Fluidity, and Initiation will be added together.

TRACK LAYOUT

DRIFTING INITIATION

 During qualifying the vehicle must be sideways, as it passes the single standing cone placed trackside.

INITIATION IS OPEN:

- ✓ Handbrake
- ✓ Clutch kick
- ✓ Weight transfer
- ✓ (Weight transfer / Clutch kick scores higher)

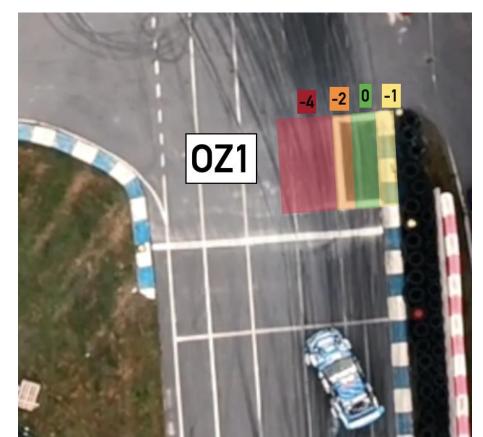

DECEL MAP

Acceleration/ Deceleration/ Orange zone:

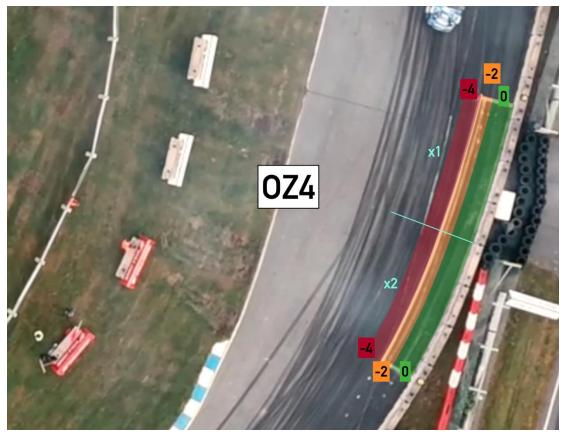

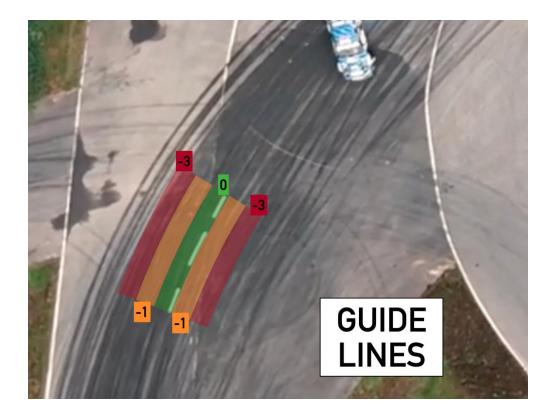

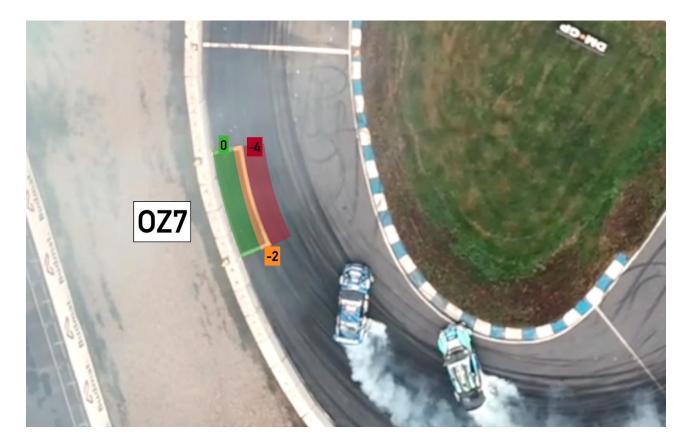

LINE 60%

- ✓ Scoring starts at the Single standing cone (white line) before OZ1,
- \checkmark Right Rear wheel close to curb at OZ1 and maintain wide line until end of OZ2
- ✓ Leave track edge immediately after OZ2 and bring front of car towards IZ3
- ✓ Smooth transition from IZ₃ to OZ₄
- ✓ Stay away from inner curb (marked with lines)
- ✓ Run wall at OZ4 and start transition towards OZ5
- ✓ Small speed adjustment through OZ5 (maintain as much speed as possible)
- ✓ Follow the guide lines with right front wheel
- \checkmark Complete transition from OZ5 to OZ 6 as early as possible
- ✓ Maintain a smooth arc from the start of OZ6, through OZ7 and till finish

ANGLE 20%

- \checkmark Consistent angle from OZ1 to OZ2
- ✓ Small angle adjustment in favour of fluidity to reach IZ₃ is allowed
- ✓ Smooth transition from IZ₃ to OZ₄
- ✓ Consistant angle through OZ4
- ✓ Smooth transition from OZ4 to OZ5
- ✓ Snappy transition from OZ5 to OZ6
- ✓ Use angle to slow through OZ6
- \checkmark Consistent angle from OZ6, through OZ7 and till finish
- In last deceleration zone speed adjustment possible only after transition is finished!!

✓ <u>INITIATION= 5%</u>

- ✓ Early Initiation cones will be used for reference
- ✓ Rate to angle Quickly getting to the desired angle
- ✓ Smooth no corrections
- ✓ Speed

FLUIDITY = 10%

- \checkmark Smooth transitions
- ✓ Lock to lock angle
- Car is settled and flows through the course
- \checkmark Throttle application
- Accuracy

<u>COMMITMENT = 5%</u>

- $\checkmark \quad \text{Aggressive on throttle to initiation}$
- ✓ Consistent throttle application
- \checkmark Approaching outer track edges with confidence
- ✓ Maintaining proper pace throughout the course as per the Decel map

Points Deductions:

- Double initiation
- Tire off course
- Missing zones and clips
- Short Straightening (correction)
- Off line
- Lack of Angle

Zero score:

If a driver does any of the following mistakes in a qualifying run, the driver will not receive a score for that run.

- Spinning Out
- Opposite drift Drifting with the opposite angle required at that point on course
- Hood and/or doors opening during a run
- Stop drifting
- Three wheels off
- Unchasable Run Run which contains errors too large to chase

TRACK LAYOUT

DM 2025 TANDEM JUDGING CRITERIA

- Lead runs will account for 10 points per judge for the battle score, and chase runs will account for 9 points per judge for the battle score.
- Scores are not shown during the livestream, only accesible upon request
- A driver is less likely to have a good chase run, if the lead run is not well performed.
- An example of how this scoring system will work is as follows:

	Lead Score (Maximum 30)	Chase Score (Maximum 27)	Total (Maximum 57)
Driver A	28	25	53
Driver B	24	26	50

In the above scenario Driver A would win the battle and proceed to the next phase of the competition.

TRACK LAYOUT

START LINE & INITIATION

- \checkmark The Lead should accelerate in the lefthand lane,
- \checkmark the chase car may accelerate staying in the righthand lane.
- The chase car may be slightly ahead of the lead after the start line but must be behind the lead before start of scoring zone
- \checkmark Cars should accelerate all the way to the initiation point
- ✓ Penalty's will be applied to any lead driver that slows or lifts before initiation
- \checkmark This also includes handbraking in the incorrect direction to the corner
- ✓ The chaser is allowed to start from a position further back than the leader, with a designated line marking the maximum permitted distance.

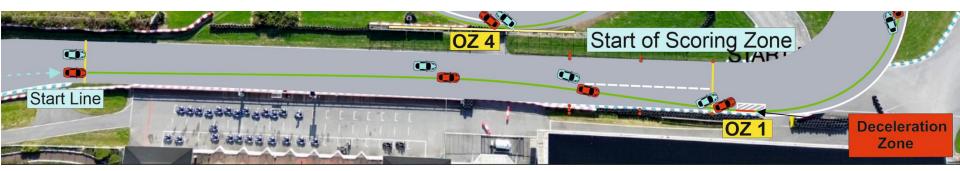

✓ The TANDEM INITIATION PROCEDURE for this round is recommended **single file**

- ✓ The lead driver may use a "flick" to initiate, lead driver can use only designated half of the track.
- Both vehicles must be sideways as they pass the single standing cone in the "3, 2, 1" cone sequence placed trackside.
- \checkmark The lead car must leave when the start light turns green.
 - ✓ If the lead car leaves early (before green light) they will receive a strike.
 - \checkmark If the lead car leaves late (1s) they will receive a strike.
 - ✓ No chicane. (False starts are monitored using a photocell system at the start line.)
- ✓ Battles are scored by comparing assessing lead runs and chase runs by point system.

DECEL MAP

Acceleration/ Deceleration/ Orange zone:

LEAD DRIVER GOALS:

- \checkmark Run the qualifying line
- ✓ Run as close se possible to 100 point qualifying run
- ✓ Run a chaseable lead run
- ✓ Follow the Accel/Decel map

CHASE DRIVER GOALS:

- \checkmark Initiate no later than the lead driver
- ✓ Maintain close proximity to the lead driver with as much duration as possible
- ✓ Match or better the lead drivers angle
- ✓ Mimic the lead driver's transitions and line throughout the course

New Starting Line Order System

- ✓ The previous system, where the higher qualifier automatically led the first run, will be changed. Under the new system, the higher qualifier now has the option to choose whether to lead or chase. When lining up at the start line, the higher qualifier selects their preferred position (leader or chaser), and the lower qualifier must accept the remaining role.
 - ✓ Higher qualifier can choose to lead or chase
 - ✓ Choice is made at the start line, before the battle begins
 - ✓ Lower qualifier must accept the remaining position

OVERTAKING

- ✓ Overtaking is allowed but:
 - \checkmark The lead driver must be offline or completely off course
 - The chase driver must carry sufficient angle and on the qualifying line.
 - The chase driver becomes the lead driver once the chase vehicle has fully surpassed the lead driver's vehicle.
- ✓ Upon completion of a properly performed legal pass, the chase driver will become the lead driver and must complete the run according to the judging criteria. Once the run is completed the vehicle that was passed will receive a ZERO on that run.

CONTACT

Drifting is a non contact sport, and contact may result in penalties. A light rub is allowed but penalties may be applied for heavier contact, or contact that effects the lead cars line.

LEAD VEHICLE

✓ If the lead vehicle loses drift, goes off line or unnecessarily reduces speed too drastically in tandem and the chase vehicle hits the lead vehicle, the lead vehicle may be deemed at fault for the collision. Each judge will ascertain fault.

CHASE VEHICLE

- If a Chase driver has a collision with a lead driver who is fulfilling the lead driver goals then he will be deemed at fault.
- ✓ After contact both drivers must attempt to complete the run.
- ✓ If the Judges believe the lead driver deliberately spun their car after contact or stopped drifting, then they may apply penalties to that driver also.

DAMAGE DUE TO COLLISION

- \checkmark Once a collision has occurred, the Judges will ascertain fault.
- ✓ In some cases, damage sustained to the vehicles may require time to repair. Only the vehicle not at fault may request up to 10 minutes to repair their vehicle.

The following constitute an incomplete in tandem:

- ✓ Spinning Out
- ✓ Stop drifting
- ✓ Three wheels off

INCOMPLETE RUN:

- ✓ A chase driver intentionally not chasing the lead driver after a zero was scored on the previous run.
- \checkmark $\,$ Performing an Illegal pass results in a zero for the chase driver
- Getting legally passed- results in a zero for the lead driver
- Opposite drift- Drifting with the opposite angle required at that point on course
- ✓ Hood and/or doors opening during a run
- Collision with the other driver that is considered "avoidable" or unsportsmanlike
- \checkmark Proximity box
 - ✓ (If lead car is behind finish and chase car is not behind OZ7, chase driver receives incomplete, if lead driver has fulfilled his goals)
- Unchasable Lead A Lead run which contains errors which are too large to follow
